Changes to the Terms of this Notice

We can change the terms of this notice, and the changes will apply to all information we have about you. The new notice will be available upon request, in our office, and on our web site.

Email Policy

When we send you an email, or you send us an email, the information that is sent is not encrypted. This means a third party may be able to access the information and read it since it is transmitted over the Internet. In addition, once the email is received by you, someone may be able to access your email account and read it. An example of this may be a friend or spouse that has access to your email account.

Email is a very popular and convenient way to communicate for a lot of people, so in their latest modification to the HIPAA act, the federal government provided guidance on email and HIPAA.

The information is available in a pdf (page 5634) on the U.S. Department of Health and Human Services website - <http://www.gpo.gov/fdsys/pkg/FR-2013-01-25/pdf/2013-01073.pdf>

The guidelines state that if a patient has been made aware of the risks of unencrypted email, and that same patient provides consent to receive health information via email, then a health entity may send that patient personal medical information via unencrypted email.

Email is defined as messages distributed by electronic means from one computer user to one or more recipients via a network. This may include, but not be limited to, traditional Google, Yahoo type services, Text messaging, Online chats and Facebook messages.

Cloud Storage of Patient Health Information (PHI):

Sky Ortho uses cloud storage to maintain certain PHI. This may include but not be limited to, Google Drive, Dropbox and other cloud based platforms.
